

**Name: Devin Cole**

**Graduating class: 2004**

**What PBHA programs were you involved in? In what capacity?**

**I was involved with Mission Hill After School Program as a Counselor, Coordinator, Administrative Director and Personnel Director.**

**I was also involved with Mission Hill Summer Program as a Senior Counselor working with the 9 year old group.**

**What communities did you work in?**

**Mission Hill**

**Did you hold any officer positions? If so, which ones?**

**None with PBHA.**

**What other extracurricular activities were you involved in at Harvard?**

**I played rugby for a semester, but otherwise it was all MHASP all the time.**

**Briefly describe your career trajectory.**

**I started out supporting 6 economic initiatives at the Boston Redevelopment Authority, the City's economic development, planning and workforce training agency. After 2.5 years, I was promoted to manager of ONEin3 Boston, which is the City's initiative to retain 20-34 year-olds.**

**In what capacities do you believe you will be able to mentor (i.e. how to be civically engaged in a for-profit job, how to explore the public interest law profession, have a service activity together, how to navigate the South End community, particular interest in leading a PBHA book club with your mentee, etc.)?**

**I think I can help people with an interest in civic engagement, government, municipal government, community building, entrepreneurship, economic development, networking, social networking and anything related to the city of Boston.**

**Is there anything in particular you would like to see in your mentee (i.e. work in a particular community, be an upperclassman, interested in going to medical school, etc.)?**

**I would be excited to mentor anyone who has an interest in building structures for public service, either non-profit or government, that allow individuals to have greater impact than they would through simple volunteering. I'd love to mentor anyone who is interested in social entrepreneurship.**

**I would also be very happy to mentor someone who no clue what they'd like to do. Really, I'll take anyone!**
